9.1 Complaint Intake and Investigations Update

COMPLAINT INTAKE:

Staff

Complaint Intake recently lost one Limited Term Office Assistant in the Enforcement File Room. The limited term expired and the position is not being refilled at this time.

Program

BreZEE reports have been developed to evaluate complaint intake and discipline process timeframes for a large number of case development milestones. These reports will identify average case times for each milestone, throughout the life of the case. The reports have been tested and are ready for final production. Unit Managers will begin receiving the data reports on a monthly basis, beginning the first week in March 2017. We will then be able to accurately evaluate how much time it takes to process cases in each stage of case development.

We have developed database to track all internal/external training courses of all BRN staff. This will assist managers in assuring that all staff has the training needed for their current job, as well as promotional possibilities. To ensure our data is accurate, all Complaint Intake staff have been trained in BreEZe coding requirements consistent with our business process.

The BRN is developing a recruitment campaign for qualified expert witnesses. Starting in February 2017, all RN license renewal notices include an Expert Witness recruitment flyer insert. We are also working with DCA to develop a more robust marketing and recruiting campaign for new Expert Witness resources. Our are in high demand for RN's with the following experience;

- Laser/Botox, Cosmetic
- Certified RN Anesthetist
- Certified Nurse Midwives
- Nurse Practitioners

Nurses interested should fill out an application on our website, www.rn.ca.gov/pdfs/enforcement/expwit.pdf .

CPEI GUIDELINES:

To clarify questions received at the February Board Meeting, Complaint Intake staff has been trained and is following updated procedures for Complaint Investigation Referrals. The DCA Case Referral Guidelines for Investigation guide Complaint Intake staff decisions to refer investigation cases to the Division of Investigation or BRN Investigation unit.

A copy of the current Case Referral Guidelines for Investigation is attached for your review.

9.2 Discipline and Probation Update

Probation Unit

Staffing

There is one vacant Staff Services Analyst (Probation Monitor) position. We recently received approval to post and fill this position and hope to have it filled in the near future.

There is a vacant Office Technician position. This position has not been filled due to budget constraints. The Board is waiting until fiscal year 17/18.

We continue to utilize one Staff Services Analyst from Discipline and one Office Technician from Investigations to assist in the probation unit.

Program

We have two staff that are currently working with DCA's SOLID training unit to teach the Probation Monitoring module of the Enforcement Academy.

We are presently working on streamlining probation processes to include online availability of forms, electronic signatures, utilizing DCA Cloud to transmit documents and transitioning to a paperless monitoring system.

Fiscal Year as of February 21, 2017

Active In-State Probationers	1,255
Completed/Revoked/Terminated/Surrendered YTD	34
Tolled Probationers	364
Active and Tolled Probationers	1,619

The average case load of active probationers per probation monitor is approximately 139. However, the average number of cases per monitor including Tolled cases is 179. There are 75 Early Termination and 13 Modification of Probation cases waiting to be heard by the Board.

Discipline Unit

Staffing

The Discipline Unit currently has an Office Technician vacancy to fill but is unable to fill the position, until FY17/18, due to budget constraints.

Program

We are working with the Attorney General's Office (AGO) to identify and prioritize the oldest cases, in an effort to ensure case completion in a timely manner.

We are planning a pilot project, utilizing DCA's Cloud to transmit cases to the AGO. This process would provide cost savings in regards to postage and paper copies as well as reduce the case aging time. We expect this to start in July 2017.

9.3 Intervention Program Update and Statistics

Staffing

The Intervention Program currently has a vacant Office Technician (OT) position that we are currently in the process of working to re-class to a full time permanent Staff Service Analyst (SSA) position. This would consolidate our vacant OT position and current limited term SSA position.

Program Update

On April 10th and 11th, 2017, Virginia Matthews, MAXIMUS Project Manager and Intervention program staff will be conducting a 6-hour educational presentation to the Hospital Association of Southern California (HASC). This presentations audience will be comprised of hospital leadership constituents in Southern California.

On February 21, 2017, the Intervention program hosted the first of a series of approximately four Mental Health Ad Hoc Committee meetings. The committee members worked effectively to review all current practices and are scheduled to discuss potential changes at the next scheduled meeting on April 18, 2017. The purpose of this committee is to develop best practice strategies to meet the unique needs of nurses with mental illness and to develop a model rehabilitation plan for use by all the Intervention Evaluation Committees.

Intervention Evaluation Committees (IEC)

There is currently one physician member vacancy in Oakland (IEC 13)

Statistics – Intervention

The Statistical Summary Report for December 1, 2016, through January 31, 2017, is after this update. As of January 31, 2017, there have been 2,155 successful completions.
