ARTICLE 7. STANDARDIZED PROCEDURE GUIDELINES

1470. Purpose

The Board of Registered Nursing in conjunction with the Division of Allied Health Professions of the board of Medical Quality Assurance (see the regulations of the Board of Medical Quality Assurance, Article 9.5, Chapter 13, Title 16 of the California Code of Regulations) intends, by adopting the regulations contained in the article, to jointly promulgate guidelines for the development of standardized procedures to be used in organized health care systems which are subject to this rule. The purpose of these guidelines is:

- (a) To protect consumers by providing evidence that the nurse meets all requirements to practice safely.
- (b) To provide uniformity in development of standardized procedures.

1471. Definitions

For purposes of this article:

- (a) "Standardized procedure functions" means those functions specified in Business and Professions Code Section 2725(c) and (d) which are to be performed according to "standardized procedures";
- (b) "Organized health care system" means a health facility which is not licensed pursuant to Chapter 2 (commencing with Section 1250), Division 2 of the Health and Safety Code and includes, but is not limited to, clinics, home health agencies, physicians' offices and public or community health services;
- (c) "Standardized procedures" means policies and protocols formulated by organized health care systems for the performance of standardized procedure functions.

1472. Standardized Procedure Functions

An organized health care system must develop standardized procedures before permitting registered nurses to perform standardized procedure functions. A registered nurse may perform standardized procedure functions only under the conditions specified in a health care system's standardized procedures; and must provide the system with satisfactory evidence that the nurse meets its experience, training, and/or education requirements to perform such functions.

1474. Standardized Procedure Guidelines

Following are the standardized procedure guidelines jointly promulgated by the Division of Allied Health Professions of the Board of Medical Quality Assurance and by the Board of Registered Nursing:

- (a) Standardized procedures shall include a written description of the method used in developing and approving them and any revision thereof.
- (b) Each standardized procedure shall:
 - (1) Be in writing, dated and signed by the organized health care system personnel authorized to approve it.
 - (2) Specify which standardized procedure functions registered nurses may perform and under what circumstances.
 - (3) State any specific requirements which are to be followed by registered nurses in performing particular standardized procedure functions.

- (4) Specify any experience, training, and/or education requirements for performance of standardized procedure functions.
- (5) Establish a method for initial and continuing evaluation of the competence of those registered nurses authorized to perform standardized procedure functions.
- (6) Provide for a method of maintaining a written record of those persons authorized to perform standardized procedure functions.
- (7) Specify the scope of supervision required for performance of standardized procedure functions, for example, immediate supervision by a physician.
- (8) Set forth any specialized circumstances under which the registered nurse is to immediately communicate with a patient's physician concerning the patient's condition.
- (9) State the limitations on settings, if any, in which standardized procedure functions may be performed.
- (10) Specify patient record keeping requirements.
- (11) Provide for a method of periodic review of the standardized procedures.
